A perfectly-affordable high-end spa!

A major innovation in the Netspa range.

The Octopus spa marvellously combines the advantages of a large 4-6 person spa, with the outside dimensions of a 4-person inflatable spa. Its structure, made of 13 cm foam panels, assembles in just a few minutes to simultaneously provide the rigidity required as well as indispensable insulation and comfort. The interior liner incorporates an insulating mat, as well as vertical bubble channels, perfect for relaxing the back. Its smart Netspa motor block heats, filters and diffuses relaxing bubbles, ensuring less maintenance and more pleasure than ever.
