Open Staircase Type “Tech”

- This premium quality contemporary styled modular staircase can be built in straight, L-shaped or U-shaped layouts.
- The staircase is easy to configure and its flexible design suits most space requirements.
- 20 different L-shaped configurations can be built from the standard kit and more than 50 different layouts are possible with the U-shaped kit.
- The "Tech" staircase can be built either left or right handed.
- Suitable for floor to floor heights from 2225 to 2890mm (for floor to floor heights greater than 2890mm see table below).
- Available in 3 widths: 750mm, 850mm and 950mm.
- The staircase has silver grey steel tread supports, vertical spindles (or for wire balustrades - see accessories).
- The solid beech treads have either a natural beech or walnut varnish.
- The solid beech modular handrail is stained to match the treads.
- The modular balustrade system will suit all staircase layouts.
- The standard "Tech" kit includes balustrade for one side of the staircase (see accessories for additional railing and balustrade options).
- A complete easy to follow installation DVD is provided.
- Riser bars are recommended when young children may be using the staircase.
- Please call or email for design and/or configuration assistance.

Rises and Treads

- The standard staircase fits a floor-to-floor total height of 2225-2890mm with 12/13 rises and 11/12 treads.
- The tread thickness is 40mm.
- The rise can be adjusted between 185-225mm. The first rise is always 190mm.
- The going can also be adjusted:
 - Stair width 750mm : 200-225mm
 - Stair width 850/950mm : 225-250mm
